To whom it may concern,

It is with pleasure that I act as a reference for Kintel General Contractors. Kintel is currently working on a project for us at Elte Carpets. They are constructing our new carpet and furniture warehouse in addition to our corporate head offices. The project totals over 90,000 square feet.

Over the span of the construction project, Angelo and his supporting staff have been a pleasure to work with. Kintel has responded well to any project changes that we required. They were also successful in organizing the project into two phases, allowing our operations to continue seamlessly on the premises.

Kintel has successfully completed a number of construction projects for us in the past. We have continued to work with Kintel due to their vast amount of construction knowledge and experience. I am pleased to recommend Kintel for any construction project and am confident they will be of great assistance throughout the entire construction process.

Respectively,

C G Bolt

Vice President
